For Immediate Release

Global Agricultural Supplier Digi-Star LLC Selects VAULT400 as Cloud Backup Solution

INDEPENDENCE, Ohio (February 24, 2014)—United Computer Group, Inc. (UCG), an information technology services firm, was recently selected by Digi-Star LLC, a leading manufacturer of electronic weighing systems for the agricultural industry, to protect their mission-critical data with VAULT400.

Digi-Star's search for a data backup service included a number of vendors in addition to UCG's VAULT400. The vendor of choice would need to provide live customer support; secure, off-site data centers; and the option to add IBM i hardware disaster recovery in the future. UCG's VAULT400 met and exceeded all major requirements.

The UCG and Digi-Star IT teams completed the VAULT400 cloud backup installation in just a few hours. VAULT400 provides Digi-Star worldwide access to their data twenty-four hours a day, seven days a week. Digi-Star now enjoys complete backup archival retentions in multiple secure, off-site locations to meet their RPO objectives.

About United Computer Group, Inc. and VAULT400

ucgrp.com • vault400.com

UCG provides cost-effective technology products, services, and solutions customized to fit the needs of their clients. Founded in 1987, UCG is an IBM Advanced Business Partner specializing in mid-market and enterprise clients. UCG has been rated in the top 1% of IBM Business Partners nationwide.

UCG's VAULT400 is a premier managed risk mitigation and business continuity planning service for secure online backup and disaster recovery. VAULT400 backs up an entire organization's business-critical data to UCG's secure data centers. Safe and off-site, the encrypted data is available online at all times for immediate, user-initiated recovery. VAULT400 works seamlessly within an organization's existing infrastructure with no additional hardware required.
