Overview

Since 1987 UCG has helped companies of all sizes create winning business's utilizing customized technologies and services. We protect businesses critical data with our IBM i Cloud Backup & Disaster Recovery, high availability, and enterprise security training solutions. Clients can take advantage of award-winning S2K ERP software to run their business more efficiently.

UCG i Cloud, our on-demand test, development and production partitions are designed to ease the burden of system administration, operations, and overhead.

At UCG, we're obsessed with customer satisfaction. We listen carefully to our clients' business issues and pain points, and work with them to find a solution. Providing an outstanding client experience is one of the reasons we are ranked in the top 1% of IBM Business Partners globally.
